

# DESERT RIDGE CAMPUS PARKING STRUCTURES

Phoenix, Arizona

**Owner:** Ryan Companies US, Inc.

**Architect:** RSP Architects

**Engineer:** Chavez-Grievies

**General Contractor:** Ryan Companies US, Inc.

- Coreslab Structures (ARIZ) Inc provided design assistance during the early design stages of the Desert Ridge Campus which included two parking structures, one of which was constructed in two phases.
- The precast framing solution incorporated skewed DT floor framing and cantilevered exterior spandrels to facilitate the necessary clearances and turning radiuses.
- Coreslab had to develop a construction “site logistics plan” to facilitate the delivery and erection of the precast to minimize the disruption of the medical offices and their patients as portions of the campus were existing businesses.
