

HARD ROCK HOTEL & CASINO – SOUTH PARKING GARAGE

Las Vegas, Nevada

Coreslab Structures (ARIZ) Inc extensive experience with the design and construction team ensured that the Hard Rock Hotel & Casino South Parking Garage was built safely and successfully.

“Coreslab also worked hand in hand with our onsite project management and supervision to develop an erection sequence plan, then fabricated, delivered and erected the eight levels, 1,440 space parking garage ahead of schedule. The garage at the Hard Rock was the most difficult erection encountered in my 25 years in the industry. Coreslab was again the right choice for the job, and they completed it in a safe, professional manner.”

Excerpt from Testimonial Letter received from Duane Frerker, Senior Project Manager, M.J. Dean Construction, Inc.

Owner: Morgans Group LLC

Architect: Klai Juba Architects

Engineer: Lochsa Engineering
