

NEW YORK NEW YORK HOTEL & CASINO PARKING

Las Vegas, Nevada

Owner: MGM Mirage

Architect: Marnell Carrao Associates

Engineer: Martin Peltyn Engineers

General Contractor: Marnell Carrao Associates

- Coreslab served as the design build leader on the project to allow the developer to focus on the hotel construction.
- The 10-story, 3,800 car structure included 1,179,800 S.F. of double tees and monolithic 10-story cast-in-place concrete shear walls.
- The exterior design is highlighted by four distinctive precast concrete spandrel types to add visual interest. The detailed, three dimensional designs provided on the middle and upper spandrel feature a stylized form of the letters "NY" and a fluted style inspired by a gothic building in England.
- The project was completed by Marnell Carrao and Coreslab in 1987.
