

USC Village

- 1,044 Brick Faced Wall Panels
- Over 1.2 Million Bricks
- Stone Forms Cast in Panels
- Over 180,000 S.F.
- Engineered in House

A 15-acre mixed-use project that will replace the University Village shopping center with five-story residence halls for 2,700 students, as well as a grocery store, a fitness center, a drugstore, a "mobility hub" with information on public transit options, and loads of other retail totaling 115,000 square feet. The new development will also feature a centrally-located plaza, surrounded by eateries and outdoor dining

Owner: University of Southern California

Architect: Harley Ellis Devereaux

Engineer: Nabih Youssef

General Contractor: Hathaway Dinwiddie

Precast Engineer: Coreslab Structures (LA) Inc.
