

REMAX PARKING GARAGE

Sarasota, Florida

- This Multi-Use facility incorporated a real estate office under the parking structure.
- The exterior façade that was supplied was a smooth form finish structural panel ready to accept paint and EFS applications.
- With a small footprint such as this project and the retail under the first elevated level we had to incorporate a very steep speed ramp at 21% which required bottom and top transitions.

Architect: The Muse Organization

Engineer: Bob Case P.E.

General Contractor: Willis Smith
